

VICTORY ROAD ADVISORS

Crafting Your Investment Strategy with Nitrogen

Let's talk about risk.

Subjective risk questionnaires nearly always miss the mark.

That's because the old way of assessing risk, stereotyping investors with subjective semantics, simply doesn't work.

The words "moderately conservative investing" may mean something different to you than it does to me,

and a person's age doesn't always determine those factors anyway.

In fact, a team of academics performed an assessed our methodology and found that 52% of 20-29 year olds aren't *aggressive*, and 53% of 70-79 year olds aren't *conservative!*"

"I like to treat my clients as individuals ... "

"AGGRESSIVE"

"MODERATE"

"CONSERVATIVE"

My approach uses the Risk Number. It's built upon a Nobel Prize-winning framework, and everyone has one. What's yours?

My Process

I combine my depth of investment knowledge, investment philosophy, and cutting-edge technology in order to empower my clients to invest fearlessly.

RISK RISK

How much risk do you want?

We'll take a quantitative approach to pinpointing your Risk Number by going through a series of objective exercises based on actual dollar amounts.

How much risk do you **have**?

If you've already got an investment portfolio, we can quickly import it and see if your Risk Number aligns with your current amount of Risk.
